
SUMMARY

UK Global Talent in Android development with strong experience delivering high-quality solutions across diverse industries including social networking, FinTech, AdTech, and pioneering taxi ordering services in London, including Android applications and integrating core features for prominent Eastern European and CIS corporations, such as Beeline, one of the leading mobile operators in the region with 44+ million active users, and Appodeal Stack, one of the prominent mediation platforms with 25+ million active users and 40K+ mobile applications

EXPERIENCE

Senior Android Developer | Fleksy **Oct 2024 - Present**

Keyboard mobile SDK

- Led a major refactoring initiative that reduced ANR (Application Not Responding) rate from 0.62% to 0.37%, significantly improved app stability
- Fixed numerous system-critical bugs, decreasing the crash rate from 0.27% to 0.22%
- Designed and implemented CI/CD pipelines and automated workflows for 3 internal SDK projects, boosting development velocity and reliability.
